Did you behold the electric lights on Salem's street last night? They're there to stay.

A good business man advertises his business right along, and this saves the final ad. by the sheriff.

Give us better politics and legislation for the great middle class, and less for the millionaire and the pauper.

The Astorian talk about "class hatred" just as tho' we had such a thing as "classes" in the free and equal country.

It is well enough to say "Know thyself," but if some people really did they ought to be ashamed of the acquaintance, says an exchange.

Frank G. Carpenter should go to Greenland and cool his brain. He writes a syndicate letter from Porto Rico in which he speaks of "President McKinley's new subjects." The major has no subjects, though he has several damnable objects.—Johnstown Democrat.

Ten thousand hop pickers from all parts of the valley have gone to the yards from Salem. The bulk of the hops will be brought here, and hundreds of thousands of dollars will be paid for them through the Salem banks. But the Salem brewery will not use all the hops.

A well known American gentleman who inherited millions and also banished from his family "to which he added on his own hook: an inveterate habit of consuming chloral," has been retired to an asylum. But the papers assure us that he will there continue to successfully increase his property by the skillful management of his affairs. What a cinch! You can be a capitalist anywhere: mad or sane. Is this what they call the survival of the fittest—in spite of the Constitution.—Commoner.

S. H. Holt, a Jackson county middle-of-the-roader, announces through the columns of the Ashland Record that he will undertake the task of re-organizing the populist party of Oregon in the middle of the road. On his tour through the state Holt can hold up Jackson county, his home as an object lesson of his political methods. A complete set of republican county officials, and almost a solid delegation in the legislature is the beautiful out come of his management of the populist party there. As an assistant republican he is a shining success and certainly earns whatever salary his employers pay him.—Roseburg Review.

The Nebraska Democrats have nomi-

ated a Populist for judge, a Populist for congress and adopted a Populist and Silver Republican platform. Democrats, after being searched for a precaution against concealed Democratic principles, will be allowed to vote for the ticket, says the Corrier-Journal.

A man stood staid; France was one Alp of hate,
Pressing upon him with the whole world's weight.
In all the circle of the ancient sun
There was no voice to speak for him—not one.
In all the world of men there was no sound
But of a sword being broken to the ground.

Hell laughed its little hour; and then behold,
How one by one the guarded gates un-
fold!
Swiftly a sword by Unseen Forces hurled
And now a man rising against the world!

Oh, import deep as life is, deep as time!
There is a something sacred and sublime
Moving behind the worlds, beyond our ken,
Weighing the stars, weighing the deeds of men.

Take heart, O soul of sorrow, and be strong!
There is One greater than the whole world's wrong.
Be hushed before the high Benignant Power
That moves wheel-shod through sepulcher and tower!
No truth so low but he will give it crown;
No wrong so high but he will hurl it down.
O man who forges the fetter, it is vain:
There is a still hand stronger than your chain.
'Tis no avail to bargain, sneer and mock,
And slung the shoulder for reply to God.
—Edwin Markham in September McClure's.

A colored man was brought up for some petty offense and as the charge, "the state of Iowa against John Jones," was read to a loud voice, the colored man's eyes bulged nearly out of their sockets, and he seemed perfectly overcome with terror and astonishment. When he was asked if he had anything to say, or pleaded guilty or not guilty, he gaped out:
"Well, yo' honah, ef de whole state o' Iowa is agin this one nigger, I've gwine to give up right now."

An old-line, dyed-to-the-sox Republican, who has voted for patriots, statesmen and yellow cantines alike ever since the Rebellion, says he can't see how a measly, despised white metal sheet like Tan Johnson ever brought about Republican defeat in Salem. We agree with him exactly.

Bland's district in Missouri elected a Republican to congress six years ago over the head of Dick Bland himself. Now an almost unknown Democrat gets 2800 plurality, and the administration organs are having hard work to call it an endorsement of McKinley.

"I suffered with piles eleven years before using DeWitt's Witch Hazel Salve; my health is restored—I feel like a new man."—Conard Stange, Pierz, Minn. A soothing, healing preparation of standard merit; Stoues Drug Store.

BEECHAM'S PILLS

Factory at LaGrande Starts Up for the Season's Run.

Baker City Democrat.

The clarion tones of the sugar factory whistle again awake the slumbering echoes, and with no unforced interference will continue to do so for several weeks to come. The factory is now working on the residue syrup left over from last year. At present there are three centrifugals at work on the syrup. The centrifugals are machines which separate the sugar crystals from the syrup, and the sugar thus extracted, is of a light brown grade. Later on this sugar will be mixed with the beet juice again worked over and reduced to white, granulated sugar.

Superintendent Doerflinger has issued notices to the applicants who have been accepted for the regular season's work to report at the factory for assignment to their respective stations on Saturday, September 16, at 2 o'clock in the afternoon, it being the intention to begin slicing beets on the following Monday.

Almost a full quota of operatives for the various departments has been secured and the indications continue favorable for a long and successful run of the factory. Arrangements are under way for completion and extension of the beet sheds, as the quantity handled will be more than double that of last year. Storage room will also be provided for all the residue syrup of the season and operation of the factory will be commenced at a much earlier date next year.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

The board of the United States engineers, consisting of Major Huer and Captain Langitt and Harts, appointed to ascertain and report upon the desirability of condemnation and purchase by the United States of the canal and locks at the falls of the Willamette, will meet at Portland Monday, September 18, at 2 p. m. The place where the meeting will be held has not been definitely decided upon as yet, but due notice of the room selected will be given.
